Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

The Roop Rural Historic District was determined eligible for the NR by MHT letter dated 4/27/1994

The Roop Rural Historic District is a large rural historic district centered around a number of properties which belonged to the Roop Family in the 19th century but which also includes properties not linked to the Roop family. This area just outside Westminster remains largely rural and reflects the historic agricultural character of the County. Throughout the 19th century, Carroll County was an extremely productive agricultural area and its economy and lifeways remained largely agricultural well into the 20th century. This area still conveys a strong sense of the agricultural landscape that characterized the County until recently. A number of the properties included in the district are associated with the Roop family, a prominent and prosperous farm family in this area in the 19th century. The Roop Rural District is important for its representation of the historic agricultural character and landscape of Carroll County from the 19th and early 20th centuries.
